

Career Exploration Internship Program

Attention juniors!

Would you like to gain real work experience that you can add to your resume and future college and job applications?

Would you rather spend part of your school day in the workplace learning more about your chosen career field?

If so, and you will be a senior next year, consider signing up to complete an internship!

Colleges and employers take notice of this! You can earn high school credit and gain valuable experience while exploring the tasks and responsibilities of a career area of your choice. Space is limited in this program! You can sign up by registering for the Career Exploration Internship Program when you schedule with your counselor this spring.

Potential Career Areas for Internships:

Animal Care: Rotation sites include veterinarian offices, day care centers, and animal training facilities.

Athletic Training: Rotation sites include high school sporting events.

Banking: Rotation sites include local banks and credit unions.

Education: Rotation sites include elementary, middle or high school classrooms.

Legal: Rotation sites include local law firms.

Management: Rotation sites include local businesses, hotel/restaurant facilities, and other companies.

Political Science: Rotation sites include local political representative campaign offices.

Performing Arts: Rotation sites can include local theater companies or school settings.

Real Estate: Rotation sites can include local real estate companies.

If you are interested in a career area not listed above, please see Ms. Heath in Room 2217 or in the Career Center or email at nheath@cssdapps.org to see if we can accommodate your request.

Please note: Law Enforcement and Medical career internships are best handled through CITI BOCES through the Public Safety and Justice Program, the New Visions Allied Health Program, or the Nursing Assistant Program. The PVM Career Exploration Internship Program typically can't fulfill those internship requests.
