

**Job Title:**

Service Technician

**About the Company:**

Brady Systems is a 60-year-old, well capitalized, debt-free company that sells and services Scale Systems (hardware and software) in both Industrial and Retail markets. The company is a territory distributor for Mettler Toledo, which is the largest scale manufacturer in the world. The company is looking for full-time employees to develop their careers in a stable, growing Syracuse-based company.

**Job Description/Responsibilities:**

Brady Systems is looking for a candidate with any mix of mechanical, plumbing, electrical, gas, and/or electronics experience. Responsibilities include the installation, inspection, calibration and preventive maintenance of scales hardware/software and scale interfaces. Additional responsibilities include installing, maintaining, and repairing food service equipment. Prior scale or service experience is a plus but is not required. A positive attitude, good work ethic and a commitment to customer service is required.

**Start Date/Pay:**

Start date is flexible but our need is immediate.

The position is: **Full Time**

Pay is offered at or above market and is commensurate with a person's prior experience.

**Requirements:**

*Education/Certifications:*

- Associates degree is preferred but not required.
- CDL Class B license is preferred but not required.

**Experience:**

Computer experience, including Microsoft Word and Excel.

The company will offer job training; however, prior work experience (1-5 years) is preferred.

**Other:**

Good communication skills, strong work ethic and a positive attitude a must.
